

Federico Poletti

Full-Stack Developer · TypeScript · React · Node.js · AI Integration

federicopoletti83@gmail.com · nomad-life.app · Sardinia, Italy (EU timezone) · Remote · Available immediately

PROFILE

Self-taught full-stack developer who built a complete production-grade social platform solo in under a year. I work best with autonomy — I take a problem on Monday and ship something real by end of week. Strong in AI integration (OpenAI function calling, streaming, voice input, image analysis), modern React architecture, and API-driven product development. Comfortable across the full stack from database schema design to mobile-first UI. Fluent in Italian and English.

FEATURED PROJECT

NomadLife — Digital Nomad Social Platform

Built solo from zero to production. A full-stack PWA serving as a social hub for digital nomads — designed mobile-first with a full AI assistant at its core.

AI features (production): NomadBot is a database-connected agent with OpenAI function calling — books coworking spaces, searches flights/hotels via affiliate APIs, analyzes trip costs, reads uploaded photos (Vision API), streams responses in real-time, accepts voice input, generates AI travel itineraries.

Stack: TypeScript · React 18 · Node.js · Express · PostgreSQL · Drizzle ORM · OpenAI API · Tailwind CSS v4 · Framer Motion · Leaflet · Vite · WebSockets · PWA

nomad-life.app

EXPERIENCE

Solo Full-Stack Developer

NomadLife (Independent Project) · Remote, Sardinia

- Designed and implemented entire system architecture — database schema, REST API, frontend, AI layer — independently
- Shipped 50+ features: AI chatbot with tools, real-time map, social feed, booking engine, marketplace, PWA infrastructure
- Integrated OpenAI function calling for agentic tasks: booking, flight search, trip cost analysis, image analysis, itinerary generation
- Built multi-channel real-time chat system (community channels + private DMs + groups) with Passport.js session

2025 – Present

Property Host & Operations Manager

Vacation Rental · Booking.com · Sardinia, Italy

- Set up affiliate revenue stack: Travelayouts (7 providers), SEO sitemap, Open Graph, JSON-LD
- Managed guest experience, pricing, and logistics end-to-end for short-term rental property
- Data-driven pricing and occupancy optimization — consistent 5-star ratings

2020 – Present

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, SQL, HTML, CSS	AI / LLM:	OpenAI API, function calling, streaming, Vision embeddings
Frontend:	React 18, Tailwind CSS, Framer Motion, shadcn/ui	Backend:	Node.js, Express, REST API, Passport.js, bcryptjs
Database:	PostgreSQL (Neon), Drizzle ORM, drizzle-zod	APIs:	OpenAI, Travelayouts, SendGrid, Tavily, reCAPTCHA, Leaflet/Overpass

EDUCATION

Master's Degree — Political Science & International Relations

Università degli Studi · Sardinia, Italy

Self-directed Full-Stack Development · 2024–Present · Built NomadLife in production from scratch
